

Blend

What makes the Blend collection so special is the fusion of the organic-shaped bowl with the linear top. The invisible design of the Flush drain fits the Blend perfectly. Blend invites you to touch it.

The curved design of the bowl allows for easy maintenance.

Design by Marike Andeweg

Washbasin layout

Make a choice between a single or double bowl washbasin and fill in positions 1-5 or 1-6 accordingly. Next step is to define the size of the bowl(s) indicated by the and symbols. Go to page 31 for Blend bowl sizes.

SINGLE

- 473 / 723 / 973mm
- 587 / 837 / 1087mm
- ① max. 5000mm
- ② max. 550mm
- ③ min. 30mm
- ④ min. 30mm
- ⑤ min. 30mm
min. 75mm with tap hole

Note: when ordering only a top with bowl(s), sizes 3, 4 and 5 need to be adjusted according to the cabinet construction.

DOUBLE

- 473 / 723 / 973mm
- 587 / 837 / 1087mm
- ① max. 5000mm
- ② max. 550mm
- ③ min. 30mm
- ④ min. 30mm
- ⑤ min. 30mm
min. 75mm with tap hole
- ⑥ min. 60mm

Note: when ordering only a top with bowl(s), sizes 3, 4 and 5 need to be adjusted according to the cabinet construction.

Edge

Blend washbasin can be supplied with a 9mm top or with an edge from 20mm up to 900mm.

H9
9mm top sheet

EH100
Edge 20 - 100mm high

EH150
Edge 101 - 150mm high

EH200
Edge 151 - 200mm high

EH200 + remaining m² in H9
Edge 201 - 850mm high

XSG50
50mm plinth for floor-standing model

Bowls

Blend bowls can only be ordered with at least a top.

CBL47390
w587 x d347 x h90mm
rec. edge height 125mm

CBL72390
w837 x d347 x h90mm
rec. edge height 125mm

CBL97390
w1087 x d347 x h90mm
rec. edge height 130mm

Tap hole

If you need to fit a top-mounted tap, we can pre-drill the hole (code **HH35**).

Consider the space you would need to secure the tap with a tightening ring.

Top-mounted tap:

Brackets and ribs

Please refer to page 11, where brackets and ribs are explained, to find out what type of support is needed for your washbasin.

Drain type

Depending on how the washbasin needs to look and work, you can choose from different drain types for Blend.

① **FLUSH DRAIN**
free flow drain

Blend bowls are standard equipped with our Flush drain. This drain allows water to flow through at all times and cannot be closed.

Flush drain is free of charge

② **POP-DOWN DRAIN**
closable drain

Our Pop-down drain has the same aesthetic as the Flush drain but it can be pressed down to close the drain.

Pop-down drain is calculated per bowl

For use with the Pop-down drain, Not Only White recommends to equip the bowl with an overflow.

③ **DR72 DRAIN HOLE**
for a third party drain

The DR72 drain hole is used for third party drains, both closable and non-closable.

DR72 drain is free of charge

Not Only White recommends to pair a third party closable drain with an overflow.

Note: when choosing a pop-down drain we recommend an extra edge height of 15mm.

Overflow

An overflow is not possible.

Integrated backsplash

Not Only White offers an integrated backsplash on Base washbasins (code **CSP90H**) with a maximum height of 90mm.

Note that a backsplash with a height over 90mm will be supplied as a separate piece without a radius edge.

Separate backsplash is calculated per m²

Basq trays

Blend washbasin can be supplied with a plateau on the side for Basq trays. Please refer to page 10 and 45.

Cut-outs and edge finishes

Please refer to page 10.
