

# Axis

---

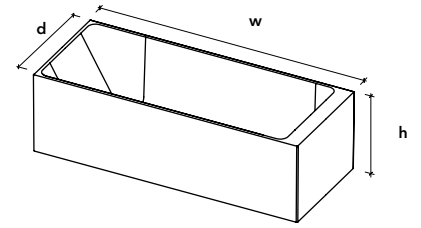

The Axis bath is a free-standing, rectangular bath with rounded internal lines. The sloping side, combined with its generous proportions, makes the Axis a wonderfully comfortable bath tub. The overflow is subtly integrated within the tub and the drain plug is made of the same material as the bath.

Axis bath is made of Cristalplant, which can be combined with the white Hi-Macs of the Not Only White basin collections. In terms of design, the Axis bath fits best with basins from the Base collection.

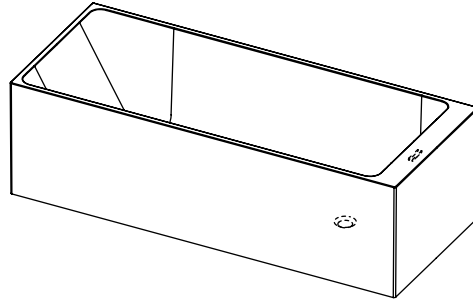

Especially designed for the Axis bath, the Axis bath tray runs nicely along the linear lines of the tub. With one's favourite magazine, candle and drink within easy reach, bathing is more relaxing than ever.
